

Houston Arts Partners Conference  
 GT Credit Hours Tracking Form  
 Sept. 11 – 12, 2015

These workshops count toward the TAGT Awareness Certificate in the area of Creativity and Instructional Strategies. Individuals working toward the TAGT 45-hour Awareness Certificate should keep track of their training documentation until all hours are accumulated and then submit the paperwork to the TAGT office for verification. If they have the needed hours in the area approved, they may count it as part or all of the 15 additional clock hours needed. **Please note that it is a local school district decision whether these hours will be accepted for required professional development.** For each time slot, please mark the conference session for which you are requesting GT credit hours and obtain an instructor signature if required by your district. Each session is worth 1 hour of GT credit.
